## SKILLS

### PROFESSIONAL

- Strong communication skills, verbal and written.
- Result oriented, problem solving.
- Ability to work effectively under pressure and meet deadlines
- Ability to work collaborative with other team members in achieving team goals.
- Ability to work independently and produce results.
- Self starter and self motivated.

## PROFESSIONAL PROFILE

I am a highly self-motivated and self starter Junior developer with 1 year learning and practical experience. I graduated as a developer in December 2020 with CodeX academy where I enrolled with them since Jan 2020 as a trainee software developer. Codex academy provided us with learning and practical experience, I have gained knowledge and experience in the following areas or disciplines.

- Testing software
- Web Development using JavaScript frameworks
- Consulting with mentors on the status of project
- Modifying software to fix errors, adapt to new software or upgrade of interfaces
- Directing software programming and documentation development
- Deploying finished app on Heroku
- Push code to GitHub using Git with +8 years of experience in the Media industry focusing mainly on traditional media channels across retail clients

My area of passion is both frontend and backend developments. I am learning how I can integrate Java into my backend as I currently use JavaScript for both.

I enjoy working with numbers which is one of my strengths as working with client budgets requires me to be highly analytical and proficient with data.

I always strive for excellence in every aspect within the workplace and I am eager to learn and try new opportunities that will help develop my skills.
